-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2-2-04 has been entered.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The meets and bounds of claims 9 and 10 cannot be determined in view of the terminology "glass powder having lower transition temperature having a glass transition temperature". It is not clear if 500°C is required as the transition temperature or not. Deleting "having lower transition temperature" will overcome this rejection.

Specification

4. The disclosure is objected to because of the following informalities: The glass used in the instant invention is not defined by a composition and therefor does not provide one of ordinary skill in the art with sufficient information to reproduce the instant invention. The defining of the glass composition by its tradename is not considered

sufficient because a tradename may change over time. Applicants are requested to supply a copy of the product information sheets for the tradenames and amend the specification to include the composition, at the time of the filing of the application, of the glasses defined only by a tradename.

Appropriate correction is required.

Allowable Subject Matter

5. Claims 1-6 are allowed. The rejection over Bacher is withdrawn in view of the declaration submitted by applicant showing Bacher uses a glass having a transition temperature greater than 500°C.
6. Claims 9 and 10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
7. Ryu (6,599,851) is cited as prior art of interest however fails to teach or fairly suggest the claimed magnesium titanate powder having the specific properties.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl E Group whose telephone number is 571-272-1368. The examiner can normally be reached on M-F (6:30-4:00) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell can be reached on 571-272-1362. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
